

Om Joshi

B.Tech Computer Science and Engineering

Personal Profile

Final-year B.Tech Computer Science student and Full-Stack Developer with strong backend development skills. Experienced in building scalable web applications using the MERN stack, including real-time systems, secure authentication, RESTful APIs, and database-driven solutions. Passionate about software engineering, problem-solving, and emerging technologies, with a growing interest in AI-powered applications and backend architecture.

Education

2023 – 2027: B.Tech in Computer Science & Engineering

College : D. Y. Patil College of Engineering & Technology, Kolhapur, Maharashtra

CGPA: 8.3

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Networks, Software Engineering, Web Development, Data Analytics.

Academic Focus: Full-Stack Development, Backend Engineering, Artificial Intelligence, Problem Solving.

Skills

- **Programming Languages :** C, C++, Java, Python, Javascript, Typescript, Dart
 - **Web Technologies** HTML5, CSS3, React, Node.js, Express.js, TailwindCSS
 - **Frameworks and Libraries :** Numpy, Pandas, Matplotlib
 - **Development Tools :** VS Code, Git, Github, Postman, Insomnia, Android Studio, IntelliJ IDEA
 - **Soft Skills :** Communication, Teamwork
-

Projects

1. PollForge – Real-Time Polling Platform

- **GitHub:** <https://github.com/OmJoshi02/pollforge>
- **Live Demo:** <https://pollforge-alpha.vercel.app/>
- **Tech Stack:** React.js, Node.js, Express.js, Socket.IO, JWT Authentication
- Built a full-stack real-time polling platform enabling users to create, share and manage polls with live analytics.
- Implemented JWT-based authentication, role-based access control and protected routes.
- Integrated Socket.IO WebSockets for instant response updates and real-time analytics dashboards.

2. Event Manager – MERN Stack Application

- **Live Demo:** <https://event-manager-weld.vercel.app/>
 - **Tech Stack:** React.js, Node.js, Express.js, MongoDB, Mongoose
 - Developed an event registration and management platform supporting user participation and admin controls.
 - Designed MongoDB schemas and REST APIs for users, events and registrations.
 - Implemented JWT authentication, Zod validation and role-based authorization middleware.
 - Built dashboard statistics, registration workflows and secure backend architecture using Express.js.
-

Achievement and Certifications

- Full Stack Web Development(Chaicode cohort 26) - Covering HTML, CSS, Javascript, Node.js, Express.js, React.js, DevOps for Developers
- Oracle Cloud Infrastructure 2025 Certified Data Science Professional
- Completed **100 Days Coding Challenge** on CodeChef
- Completed **50 Days Coding Challenge** on LeetCode
